Veil Wall Hung Toilet Suite, Aleo Tapware and Abrazo Freestanding Bath by *Kohler*

# MICO BATHROOM BOOK 2018

---

Choosing your new bathroom – its overall design and how it will function for you and your family – can be both exciting and daunting.

Whether it's a revamp of an existing bathroom or a brand-new design, there is a lot to think about.

What tapware will look best, do you prefer a gentle or vigorous shower, is there space for a bath, what style of vanity matches your personal taste and the style of your home. How much do you want to spend?

The Mico Bathroom Book 2018 presents options for all these considerations, and all the other elements, hidden or apparent, that will ensure your new bathroom not only meets the requirements of you and your family, but also fulfills your dreams.

As you turn the pages you will discover a series of collections featuring carefully selected products from Europe's leading

manufacturers alongside cutting-edge and established New Zealand brands.

Tips on planning will help you decide where to start and how to move through the process. If you are concerned about the environment and sustainability you will find the answers you need.

Let this book be your guide....

# BATHROOM TRENDS

Look beyond the conventional to the unique, with a bathroom that combines functionality and style to create a timeless, beautiful and relaxing space.

If you have long viewed bathrooms as utility areas then think again. These essential spaces have increasingly become highly stylish, indulgent retreats, as attractive as they are functional.

Borrowing design principals from the living areas of the home, in 2018 Kiwi bathrooms ooze serenity and indulgence, while tapping into the drive to be eco-friendly.

They're spaces you can put your own stamp on – regardless of whether you are working in a compact powder room or an opulent ensuite. So throw convention out the window and rethink traditional shapes, colours and textures; as long as there is continuity within the room, anything goes.

These areas are worth investing in – not only are they high-usage areas of the home, they are also a not-so-secret weapon when it comes to resale; it has been proven bathrooms sell houses.

## SET THE TONE

Ensure a seamless flow from the rest of the home by embracing the wide variety of materials which are now as likely to appear in a bathroom as they are in a piece of custom-made cabinetry.

Timber is now extensively used as a way of adding warmth and texture, and earthy stone has also become widely popular. Marble feels very opulent, while concrete has a raw appearance that is very on-trend.

Although chrome has long reigned supreme in New Zealand as the common choice for tapware, a range of metallics are now adding variety. Brass might feel like a throwback to the 1970s, but in 2018 it taps into the trend for natural materials and comes in a variety of finishes, whether patina for an industrial appearance, or polished for a more luxurious finish. If brass feels a little bold for your taste, consider brushed rose gold, or the more playful hue of pink gold.

Tonally, matte finishes reign. Nudes and neutrals abound, the perfect backdrop to pops of rich colour in moody blues and botanical greens. For a timeless look, grey maintains dominance, particularly in darker shades. Greige – a mix of warm grey and cool beige – is also taking off. Accents of these add sophistication while offsetting any hint of the clinical which can creep into a white bathroom.

## FURNISH YOUR NEEDS

When choosing bathroomware, picture each item as less of an essential and more a furnishing. The latest options go beyond serviceability and into the realm of art, with opulent baths, bespoke vanities and statement mirrors providing the wow factor.

Space is at a premium more than ever in 2018, and the trend for minimalism in an intimate room is being well catered for. Wall-hung toilets and floating vanities maximise available space, while clever storage solutions – such as recessed mirrored cabinetry and niche shelving – abound.

The popularity of freestanding baths is only growing, and these are now more attainable for bathrooms big and small thanks to back-to-wall models, which are sealed flush against the wall.

A move towards transparent design has seen the emergence of the open shower and the rise of wetrooms, seamlessly connecting wet area to dry. Enhancing the spa-like experience is a rethinking of water outlets, with bigger showerheads, multiple jets, and even waterfall faucets that double as shelves.

When it comes to tiles, bigger options – with fewer grout lines – are trending. The hexagonal shape continues in popularity, but there is becoming a clear preference towards the simple rectangle, laid in unexpected patterns, such as herringbone.

The power of lighting in setting the mood shouldn't be underestimated. Layered options breaking the room into zones are becoming the norm, illuminating key areas while softly flattering others. LED strips are a great way of

creating ambience, and don't be afraid of fittings more commonly associated with living areas – such as chandeliers and pendants.

Innovation is a key word in the bathroom of 2018, with energy-saving solutions ensuring optimisation of water and electricity. Technological breakthroughs now make the smart bathroom a true reality, whether in the form of motion sensors and self-cleaning toilets or surround sound and waterproof televisions.

The one thing that will derail the aura of calm in your bathroom is clutter. This can be avoided with solutions such as outlets in the cabinet to plug in toothbrushes and razors, and the likes of rotating dressing mirrors, which conceal a multi-layered storage unit. So think outside the box and let the sky be the limit. Mico bathrooms will be with you every step of the way.

## KEY POINTS

### MATERIALS

Think beyond porcelain and chrome and explore the wide variety of options which will add warmth, layering and interest to your space.

### INDIVIDUALISM

Tailor the room to your needs and tastes, whether that means including a corner to sit and do your hair or a combined toilet bidet; anti-fog mirrors or stunning art on the wall.

### CALM

Rethink your opinion of this area; no longer utilitarian, the bathroom should be an attractive space of healing and wellbeing, where you can enjoy relaxation and tranquillity.

### OPULENCE

Luxuriousness can be achieved no matter the size of space or budget; with clever design tweaks, an indulgent, sumptuous bathroom can be achieved by all.

Cygnet Vessel Basins by *American Standard*, Stick Tapware by  
*Paffoni*, Croma Slide Showers by *Hansgrohe*.

# Y N NATURE

## TREND ONE: NATURALLY NATURE

**Nature:** *n.* the physical world collectively, including plants, the landscape and other features and products of the earth.

Picture yourself in an oasis that seamlessly blends outside with in. Take in the raw beauty of timber finishing and breathe in the lush scent of abundant greenery. Walking into the shower feels like stepping into a cascading waterfall, while sinking into the bath could be likened to relaxing into a warm rock pool.

### FIXTURES

Long avoided in wet environments, wood now abounds in bathrooms and is the key to this trend – albeit in a slightly lighter, more natural tone for 2018. American oak is a stunning choice for vanities and cabinetry, but the range of timber-appearance options is broad. All match beautifully wide range of beautiful vessel basins.

If you opt for a drop-in bath, consider using timber-look or stone-effect tiles for the surround. The more open the shower the better – and a higher ceiling will only emphasize that feeling of being unconstrained in nature. Keep the toilet simple, tucking it away into a recess if the dimensions of the room allow it.

### FITTINGS

Keep the shape of tapware clean and simple, while recreating the sense of being pummeled by the elements with oversized dumper showerheads and multiple jets. A ceiling-

mounted overhead version will help the impression of a waterfall of water.

In terms of materials, the new metallics perfectly complement timber; copper tones will add warmth, while delicate rose gold pairs beautifully with woodgrain.

### FLOORS AND WALLS

Timber-look tiles will continue their popularity this year, though a smoother-looking finish is edging out the more distressed version. Cork, which comes in a variety of textures, is also emerging as a popular choice; it feels warm underfoot – plus it gets the green tick, being exceptionally sustainable.

Get creative with niches, tiling these in contrasting accents of texture and colour – a pebble look can work well.

For those whose bathrooms face into bush or a private garden area, the ultimate way of bringing nature to the fore is with floor-to-ceiling windows as a backdrop to the shower or bath, seamlessly blending indoors with out.

### ACCESSORIES

Pantone named 'Greenery' as their 2017 Colour of the Year – a hue described as a 'fresh and zesty yellow-green' – and it maintains its

popularity into 2018, cropping up in a variety of towels and accessories.

Peppering interiors with plants has become a mega-trend which shows no sign of abating, but keep it fresh with potted olive trees, which are easy to maintain and thrive in wet areas.

### LIGHTING AND TECHNOLOGY

Natural light really enhances this look, and has the added benefits of conserving energy and helping balance your internal clock. As a result, bathrooms with direct roof access are increasingly incorporating skylights this year. Artificial lighting should mirror the effect of shafts of sunlight streaming into the room. Consider LED strips of light emerging from joinery to create ambience. Reinforce the sense of sunny warmth with underfloor heating.

### TIP

Beware of overdoing it. Too many plants matched with timber and you're in danger of creating the look of an over-stuffed greenhouse.

NATURALLY NATURE

# OLD WORLD

## TREND TWO: OLD WORLD GLAMOUR

***Glamour:*** *n.* alluring charm or fascination.

You are in a room which oozes timeless elegance, mixing the beauty of a bygone age with the luxury of modern fittings. Be soothed by the soft femininity of the colour scheme and feel indulged by the feeling of silky marble. No matter the size of the bathroom, clever design ensures there is a wonderful sense of space.

### FIXTURES

This look is typified by statement freestanding baths that beg you to linger and luxuriate. Consider a roll-top version for a truly elegant look – and continue those graceful curves in the basin or vanity. Consider wall-hung options, from cabinetry to toilets, as these will make the room feel larger.

Explore the range of materials available, you want something smooth but sumptuous; marble is a great fit for this trend. It will work well in the shower too, fully embodying the sense of extravagance.

### FITTINGS

Perfectly complimenting the refinement of this style is beautiful brass and rose gold tapware; including elegant floorstanding faucets for your centrepiece bath. To allow rinsing while you bathe, a freestanding showerhead is the perfect solution. A longer wall arm for your rainhead in

the shower heightens the vintage feel, matched with a more directed slide shower. Carry your choice of soft metallic into the heated towel rails for polished cohesion.

### FLOORS AND WALLS

The most timeless colour scheme will incorporate neutral greys and clean whites, but old world glamour also lends itself to introducing pastel accents, like pale blue or soft pink.

Tile choices are far reaching. Brass inlay marble screams magnificent decadence, but for a more subtle look, you could channel the art-deco feel with monochrome tiles laid in a geometric pattern.

Wallpaper has well and truly reestablished itself in the world of interior design, and with washable and vinyl options available it can be a great option for adding character to a bathroom.

A mirrored wall, whether over the bath or around the vanity, adds to the romance of this trend.

### ACCESSORIES

Don't overlook the essentials that complete a bathroom – from robe hooks and toilet roll holders to soap dispensers and magnification mirrors – the small things can make a massive difference in the finish. Get creative with storage of soaps, bath salts and cotton wool, perhaps in

a glass or ceramic jars, but don't overdo it, as it could feel cluttered.

### LIGHTING AND TECHNOLOGY

Pendant lights have now crept into bathrooms, and work well if you keep them in step with the rest of your look, whether channeling the colours in your tiles or the metal in your tapware. Wall sconces also enhance this trend – though don't forget to provide enough illumination for practicalities.

Old world glamour might draw on history, but that doesn't mean it can't be forward thinking in its technological execution, with underfloor heating, backlit mirrors and LCD shower panels.

### TIP

Be clear on the period you want to channel, be that 19th century English heritage or the more eclectic art deco, then find a level to suit your taste, whether elaborate or subtle.

# D GLAMOUR

OLD WORLD GLAMOUR

# DECONSTRU

Porton Heated Towel Rail by *DCS* and Contura Freestanding Bath by *Caroma*.

# DECONSTRUCTED LUXE

## TREND THREE: DECONSTRUCTED LUXE

**Deconstruct** : v. To reduce something to its constituent parts in order to reinterpret it.

This takes you to a space that challenges conventional luxury, stripping it back into something minimalist but soothing, raw but beautiful, edgy but relaxed. Feel the character of exposed brickwork and enjoy the warmth of underfloor-heated polished concrete. The simple open shower contrasts with an opulent, deep bath, begging you to sink into its curves.

### FIXTURES

Concrete has gradually become more common in kitchen benchtops, and is now finding its way into bathroom vanities, often with an integral bowl. This trend also features basins in raw brushed metal or solid cast iron.

The latest rimless, wall-hung toilets are a good choice in this realm, and a back-to-wall freestanding bath will maximise space. Add to storage with a recessed mirror cabinet, and go for wall-hung cabinetry with the likes of an integrated rubbish bin to reduce clutter on the floor.

The shower should blend into the bathroom; if you are unable to go for an open option, use a low-profile shower tray combined with a frameless shower enclosure.

### FITTINGS

Experimental shapes are not limited to baths and vanities, designers have been challenging the appearance of the most functional pieces – think

a showerhead that looks like a lamp and faucets that resemble door handles, or are simply a slit in the wall for water to emerge from.

Matte black tapware which has become popular in recent years works well for deconstructed luxe, as does gunmetal. You can also consider mixed finishes across tapware and towel rails – throwing in accents of patina brass or copper for pops of interest.

### FLOORS AND WALLS

One of the hottest looks for floors this year is polished concrete, which has the added advantage of creating the illusion of space in a small area, as it is laid as one surface. As it is not always possible for bathrooms in split-level houses, an alternative is concrete-look tiles. Slate tiles are also becoming the look of choice for interior designers, taken up a wall as well as across floors – although beware of tiling floor-to-ceiling in smaller spaces as it can feel claustrophobic.

Matte neutrals are the tones to enhance this look, warmed with pops of earthy colours such as ochre, cinnamon, rust and olive green.

### ACCESSORIES

The likes of soap trays and toilet brush holders should be unobtrusive and simple, but throw in

the odd touch of luxe. An oversized, frameless round mirror is right on trend and works perfectly with this edge look, as do angular individual towel rails. Include several plants and perhaps a chair, quirky stool or freestanding towel ladder. Consider corner floating shelves to make the best use of space.

### LIGHTING AND TECHNOLOGY

Abstract lighting enhances that deconstructed appearance, especially when streaming from unexpected places – for example LED strips along the floor to provide illumination for night-time toilet trips. Geometric metal pendant lights are also worth considering. Keep heating and ventilation out of site, warming the room underfloor and going for recessed fans in the ceiling. For the perfect accompaniment, add surround sound.

### TIP

Be careful of sliding into too much of an industrial feel, there are nods to this trend, but deconstructed luxe maintains a level of majesty.

DECONSTRUCTED LUXE

# BOLD

## TREND FOUR: BOLD DRAMA

***Bold:* adj.** Confident and fearless; standing out distinctly.

You have stepped into a bathroom which makes a statement and is a reflection of the person who created it. Assaulting the senses with colour and texture, it makes you feel reinvigorated. Run your hands over the textured surfaces and feel enthralled by the intricacies of the floor design, before luxuriating in all this modern space has to offer.

### FIXTURES

The secret of this trend is ensuring balance, so pick your standout piece, whether that is a custom-coloured bath that makes you stop and stare or an abstract vanity – and be careful you don't overwhelm it. When it comes to colour and shape, let your imagination run wild. Explore the many options available; a gold-plated countertop bowl will make a statement, but so too could a sleek vessel basin with a black enamel finish artfully positioned on a white vanity. You could also consider two-toned options, such as a freestanding bath with a black exterior and a white inner.

### FITTINGS

Be bold in the way you are using water. Take showering up a notch with multi-functional showerheads – the latest featuring various flows from heavy rain to cascading waterfall.

When injecting drama, anything goes when it comes to tapware. Brass is a great fit for the dramatic look – but if you have already have several striking pieces elsewhere, matte black will blend in seamlessly.

### FLOORS AND WALLS

Add vibrancy through the multitude of patterned tiles widely available, whether monochromatic prints or decorative motifs. Be playful, considering different shapes and textures, and lay tiles in eye-catching designs such as herringbone or diamond. Fish scale tiles provide a new variation on the widely popular subway tiles.

Rich, sensuous hues, such as dark purples are where colour trends are heading, but there is also a hint of vibrancy. Pops of Schiaparelli pink as well as teal, mustard and fresh greens – as inspired by Pantone's Colour of the Year in 2017 – say bold and beautiful. Just be careful of overwhelming the space – particularly in smaller bathrooms.

### ACCESSORIES

If you struggle to commit wholeheartedly to this trend, use your accessories to bring it to the fore, with bold floral towels, a stand-out bath mat and rugs that wouldn't look out of place in a living area. Make a statement with ornate

or unusually shaped mirrors, and if you have the space, consider a chair or ottoman. Display eye-catching, handcrafted pieces to complete the look.

### LIGHTING AND TECHNOLOGY

Use lighting to add to the drama, and if you have a larger bathroom with high ceilings, don't be afraid of making a chandelier the centerpiece. Coloured lighting is also a rising trend as New Zealanders embrace the concept of chromotherapy – which uses colour for healing.

Flexibility is important, with the ability to make the space bright and dynamic in the morning, but more serene and ambient at night.

### TIP

When going for the bold and quirky, keep things in balance by ensuring lotions and potions are stored away. Consider vanities with drawers as opposed to shelving, and simple, unobtrusive wall-hung cabinets.

BOLD DRAMA

# BEFORE YOU START

There's one room in every home where sanctuary is found, personal intimacy is cherished and time is spent to reflect on oneself. Creating the perfect bathroom requires not only a marriage of form and function but space and aesthetics as well.

Whether your goal is to create a functional, comfortable family bathroom or a private retreat, there are numerous handy tips and hints that can help you get things moving!

Mico Bathrooms has many years of experience in the industry, and is highly regarded for its selection of products that combine quality with style.

All items are sourced exclusively from reputable manufacturers. Our team of nationwide Bathroomware Specialists can assist you when selecting your bathroom products, as well as introduce you to reliable tradesmen for all your installation requirements.

## GETTING STARTED

The Mico 3D Design planner is perfect for bringing your dream bathroom to life! You can explore your space with this helpful tool and select from our wide range of bathroom products. Once you are happy with your design, simply send it through to one of our expert consultants who will take care of the rest for you. Go to [mico.co.nz/designplanner](https://mico.co.nz/designplanner) for more details. If you prefer putting pen to paper there is also a helpful tool on page 18 that will help you get started in making your dream bathroom a reality.

There are always a variety of options when it comes to buying a bathroom. You can go at it alone, sourcing each individual item and hiring a professional tradesman as required, or you may choose to use an interior designer, architect or builder. As a specialist Bathroomware company,

Mico Bathrooms can help with whichever option you choose. Having developed strong relationships within the design industry, our bathroom consultants are experienced in working together with clients and designers to accurately specify product according to plans and budgets.

## HOW TO GET THE MOST FROM MICO BATHROOMS

Call into your nearest Mico Bathrooms branch anytime Monday to Saturday\* if you would like to talk to a Bathroom Specialist. Let us know what time you will be coming and we will make sure one of our qualified specialists is available to answer all your questions.

The Mico Bathrooms team will work together with you or your designer to ensure you have all the products and installation items to finish the project.

They will also provide all the quotes and specification details required for your builder, plumber or drainlayer. Mico Bathrooms will order the goods for you once the deposit is paid, ensuring your products will cost you exactly as per the stated quotation.

Our prices are in \$NZD and include GST.

NB: Supply availability, prices and codes may change throughout the year. Mico Bathrooms reserves the right to alter accordingly.

## DELIVERY

Much of what you see in this catalogue is available within five working days. However, some furniture, spa baths and designer items are manufactured to order and can have a lead time of some weeks. More specialised products can take up to three or four months if being delivered from the Northern Hemisphere.

## RETURNS OR EXCHANGE POLICY

- I. Goods supplied in accordance with the buyer's order can only be returned with the express approval of Mico Bathrooms.
- II. Requests to return goods must be submitted within 10 days from the date of supply and the original invoice number must be quoted.
- III. Where goods are accepted for credit they must be returned in original condition, inclusive of all packaging.
- IV. Mico Bathrooms reserves the right to levy a restocking fee against any returns they may agree to accept. Such fees may be up to 20% of the invoice price and levied at Mico Bathrooms' absolute discretion.
- V. Goods specifically imported, procured or manufactured on behalf of the buyer can only be returned on such terms and conditions as Mico Bathrooms agrees.

# BATHROOM PLANNER

## USE THIS TO EXPLORE YOUR OPTIONS

Measure your bathroom area and plot the walls on the grid provided. Draw or cut out various baths, shower units, furniture and fittings and arrange them on the grid. Let your imagination explore the many ways you can realise your ideal bathroom within your existing space. When you've found a design that works for you, bring it in to Mico Bathrooms where our team

of bathroom experts will help you bring your dream design to life.

# EXCLUSIVE BRANDS

More than any other room in your home, your bathroom is your personal, private sanctuary.

For you to imbue that sanctuary, that very private space, with the perfect blend of sophistication, functionality and personal style, Mico Bathrooms offers a range of top-quality, exclusive brands from a select list of preferred suppliers. Drawing on customer and staff feedback, and backed by more than a century's knowledge of plumbing products and brands, Mico Bathrooms has carefully chosen these leading national and international brands to meet the needs of New Zealanders and the unique conditions of our beautiful country.

As you choose your bathroom fittings, your plans and dreams will be inspired and developed through the expertise and support of Mico Bathrooms' staff and the skilled tradesman who undertake the installation.

## RAYMOR

Raymor's comprehensive bathroom range will complement any style of bathroom in any New Zealand home – from character charm to contemporary cool.

Simple, modern design, fine engineering and value for money distinguish the Raymor collection, with new developments continually being introduced. The newest addition offers all pressure tapware – a further example of the company's commitment to meeting the requirements of its New Zealand customers. All Raymor tapware has a 25 year warranty\*

## ADESSO

World-class Adesso bathroom products manufactured by world leaders in the industry bring sought-after European styling to New Zealand within an affordable price range. For those seeking a contemporary bathroom the Adesso range offers edgy, minimal design whilst at the same time being functional and always tasteful. Manufactured globally and engineered to exacting standards, the Adesso range of toilets, basins, baths, furniture, accessories and tapware are designed to meet the demand for performance, quality, and value for money. Adesso presents an integrity

of design that never disappoints. All Adesso tapware has a 35 year warranty\*

## PAFFONI

Expertly crafted in Italy, the centre of design innovation. This range of quality tapware is produced by a family-owned company established in northern Italy almost 60 years ago. Its two tapware divisions, Rubinetteria Paffoni SPA and Fonte Water House, create both classic and contemporary tapware, which they export to over 30 countries. Renowned for strong design Paffoni tapware represents absolute value for money, while Fonte produces cutting-edge, contemporary tapware tooled from solid brass. Between them these Italian brands offer tapware for every style of home, from traditional to truly modern.

## KOHLER

A focus on bringing a combination of quality and distinctive style to its range of bathroom products has seen Kohler grow and develop to become a world leader in the industry. Founded in America in 1873, the company has continually set new standards in design, craftsmanship and innovation.

As a result, their selection of bathroom products offers diversity, functionality and

singular quality across a broad range of price points, meaning dreams can be fulfilled no matter the budget.

## PHOENIX

An Australian owned company with a 28 year history in manufacturing tapware, showers and accessories, Phoenix has a founding principle to develop new products of outstanding quality and originality.

Phoenix believes it is important to develop a strong brand identity. Investing in the brand is imperative to future growth, and to support beautifully designed and innovative product.

As a proud winner of iF design award and 3 Red Dot awards in 2017, Phoenix is the first Australian company to receive 4 International Design Awards in the same year. Their relentless focus on design and innovation ensures customers will always enjoy the best bathroom experience. Offering tailored design solutions and bespoke manufacturing services to customers globally. The Australian design team have a collective 72 years' experience in the design industry and have been recognised for their outstanding achievements throughout this time.

# VANITIES

## DESIGN CONSIDERATIONS

The ultimate purpose is to wash, clean and store.

### IMPORTANT TIPS

- When designing their bathroom most people start by choosing their tiles and colour scheme, so in order to make the right colour choice for the vanity, it's a good idea to take a tile with you. For example, the Adesso vanity in Gun Metal is a popular choice to complement white or grey-tone tiles.
- Consider mirrored cabinets for extra storage space, as well as assisting and accommodating your daily beauty regime.
- The perfect vanity takes time to be built - this requires your attention early in the selection process to minimise delays and avoid complications to your renovation or new build.

Dusk Vanity by *St Michel*

# TAPWARE

## DESIGN CONSIDERATIONS

Mico takes pride in offering tapware brands with proven quality for all budgets. This has been crucial when developing an impressive selection of New Zealand and International brands such as Kohler, Raymor, Paffoni, Adesso, Phoenix and Hansgrohe. Feel confident asking the experts at Mico. We are here to guide you to the best solution for you and your home.

In the world of tapware there is a perfect tap for every style, function and budget. The design of the bathroom will influence the style of tapware you choose.

**SOME IMPORTANT QUESTIONS TO ASK YOURSELF ARE:**

- Do I use this tap a lot and is it nice to touch and manoeuvre?
- What don't I like about my current tapware?
- Does it work with the style of my vanity?
- Is it going to work with my current water pressure?
- Do young children or elderly use the tapware?
- Does it provide a good warranty?

**RAYMOR AVON**

# KITCHEN TAPWARE

## DESIGN CONSIDERATIONS

Cooking has long been more than just a routine task, it encourages social gatherings shared with friends and family. The kitchen is considered to be the heart of a home; increasingly sophisticated kitchen tools and the propensity to experiment with world cuisine both mean that an efficient delivery of water is essential to a well functioning kitchen.

### WHAT MAKES A GOOD KITCHEN TAP?

Your tapware can be the centrepiece or a low-key functioning tool for your kitchen. Looks do matter, however the best designs hold intelligent functions and sensuous ergonomics. Functions include pull out spray for ease of use when preparing the vegetables, to filling up that vase that won't fit under the spout. Ergonomic handles help arthritic hands. A solid cast, brass spout with minimal grooves can eliminate food build up and will stand the test

of time in a busy family home. The better the quality of the cartridge, the better your tap will perform under high use. Looking after your tap is just as important as selecting a well made tap - warm soapy water is all that is required. Household cleaners and microfiber cloths may actually damage your tapware. The options are endless for design and functionality.

**Ask a consultant at your Mico showroom for a demonstration.**

# SHOWER TAPWARE

## DESIGN CONSIDERATIONS

Shower tapware is the single most important decision when selecting fittings for your bathroom. Why? Get it right and every day you will enjoy a wonderful showering experience that suits your needs.

Shower tapware requires planning and a good understanding of the household's needs before selection can take place; for example a family bathroom shower needs to have an element of water efficiency for high use and also deliver a good shower in a short time frame.

Think about who will actually use the shower as the tapware will need to meet the needs of all of its users. Consider the following:

- Rail length
- Position
- Adjustability
- Spray pattern
- Water usage

Understanding your water pressure and selecting the correct mixer helps to make your shower experience more efficient and pleasurable.

Unequal Pressure is a common situation for renovated homes. Your shower mixer will need to equalise the higher flow of the cold to the hot before it can deliver a comfortable shower temperature for the lower pressure. There are many options available and we can help you find the right solution.

Mains Pressure is the ultimate in water efficiency and function – if you get the opportunity to upgrade your water system to mains, it will prove to be a good investment that will not disappoint. Most taps will work well on mains pressure. WELS Rating is a great tool to guide you for water efficiency.

Ask the experts at Mico. If you get the opportunity, try before you buy!

### RAYMOR AVON

# SHOWERS

## DESIGN CONSIDERATIONS

When considering what kind of shower you want, think about the dynamics of the space and size available. Ask yourself about usability and what kind of door or entry system is required. With many technical features like multi-jets and shower-heads, showers range from economical efficiency to the all-out decadence of a total body spa. One thing to look for in a quality shower is a high tile tray lip to provide a good water seal.

### FUTURE PROOFING SHOWERS

When you're at the planning stage of the bathroom, consider all options for the shower area and acquire the services of a reputable installer. Important - the shower needs to be watertight against the walls. All shower options available in New Zealand will stand the test of time, providing they are installed correctly and offer a NZ safety standard for the glass. It gets increasingly expensive to make changes, as each stage is completed. TIP - put extra bracing in the walls if you think you may want to add a grab rail, shelf or seat later on. A glass door or screen requires good bracing. Stand in the space to mark out where you want the shower nozzle to come from and a comfortable height for the mixer.

If you want a tiled recess for soaps, shower gels and shampoos, that needs to be considered before the lining goes in. It will be too late once the walls are tiled.

You may want a spacious shower but will you be warm with all that airflow around you - select a fan heater and extractor suitable for the size of your bathroom (pg 90).

The team at Mico can recommend qualified installers they work with who can not only complete your installation but help you plan your shower space, maximising your needs now, and in the future.

### SHOWER WALL OPTIONS

There is a variety of wall options for you to choose for your shower.

**Frameless showers** - create space and simplicity against a tiled wall. Note that frameless showers may leak water through the gaps between the glass and tiles unless a drip strip is added.

**Flat, side & corner contours** - one piece, seamless acrylic wall lining for your complete storage system and easy cleaning.

**Acrylic walls** - many options available with a variety of sizes, with or without corner soap and shelf recess and shaving foot rests, all for easy cleaning.

#### ATLANTIS ACURA\*/\*\*

Memphis Freestanding Bath by *Adesso*

# BATHS

## DESIGN CONSIDERATIONS

Bathrooms come in many different shapes and sizes and so do baths. So when designing your new bathroom make sure that the bath you want fits. Not all walls can be assumed to be absolutely vertical or square so make sure that you measure the distance between the walls at the height at which the bath will be at its longest and widest. Also when measuring unplastered or untiled walls make sure you take the finishing depth into account before choosing a bath.

Baths are the essence of luxury for the homes of today. It could very well be the deal-breaker for buying a home. Bathing can help you relax and wind down at the end of a busy day and offers routine to a family with small children.

Consider style, function and materials when choosing a bath.

- **Style** – drop-in or freestanding.
- **Function** – bubble massage, spa, hydro, chromatherapy.
- **Materials used** – acrylic, poly marble, quarry cast, stone composite, pressed steel, lithocast and cast iron.

Mica Basin by *Kohler*

# BASINS

## DESIGN CONSIDERATIONS

A basin can often be a pivotal feature. It allows you to cater for your bathrooms' functional needs, whilst helping you achieve that cutting-edge look that you may have seen in a magazine.

Basins and vessels need to be practical, attractive and accessible to everyone. Consider who will be using it. Will it just be for washing hands and cleaning teeth, or will there be a man using it for a wet shave? The installation and positioning are important when interpreting these needs, so try before you buy if possible. Options such as self-rimming, vessel, under-counter, inset, wall hung or pedestal offer solutions to all requirements.

Basins come in many styles from traditional to minimalistic and come in a variety of materials such as china, cast bronze, brass, glass, composite stone and quarry cast. They offer a warranty of five years or more.  
Note: Vessel basins require non-standard basin mixers, such as wall mounted or tall basin mixers.

Viel Wall Hung Toilet Suite by **Kohler**

# TOILETS

## DESIGN CONSIDERATIONS

How do you know which toilet is going to suit you? It's best to sit on them. Sometimes a toilet can look fabulous in design, but it is not really that comfortable. Test how the seat lifts. Some seats are warmer and softer to the touch. Thankfully soft closing seats are now included with most toilet suites.

No one toilet fits all. Talk to the team at Mico; they are here to find the right solution for you. Toilets come in a variety of styles, it is important to choose the right one to suit your bathroom.

**Back to Wall** – These toilet suites sit flush to the wall therefore the inlet and waste pipes can be concealed and cleaning is easy.

**Close Coupled** – The toilet cistern sits near the wall and the rear of the pan is offset from the wall.

**Wall Hung / Wall Faced** – Only the toilet pan is visible and the cistern is concealed behind the wall.

**Comfort Height Toilets** – Increased pan height for your comfort.

**RAYMOR CLASSIC**

Porton Towel Rails by DCS

# ACCESSORIES

## DESIGN CONSIDERATIONS

Many accessories are now designed with a bathroom range in mind and a focus on aesthetics as much as technical functionality - they are designed to match particular tapware, toilets and sanitary-ware.

These are the finishing touches for your bathroom, so don't skimp, and make sure the style is in keeping with the other products. If it's a new build, make sure you advise the builder of where you want to place the accessories so extra wood can be put behind the wall for added strength.
